Germany Ambassadorship Divided Between 2 Men

WASHINGTON, Oct. 21.—It is understood that President Harding's choice for American Ambassador to Germany lies between David Jayne Hill, former Ambassador, and Representative A. B. Houghton, of Conn., New York.

Many people in Juneau and vicinity have been watching the progress of the mining camp at Mayo, Yukon, and the development of the rich silver-lead properties on Keno Hill and vicinity. Livingstone Wernecke, geologist for the Alaska Treadwell and associated companies, has been at Keno Hill in charge of work being done by those companies on a number of properties that they have under bond.

Mr. Wernecke was asked to give the facts about Mayo and favored The Empire with the following complete summary of the work and hopes of the camp:

"The Mayo district was known first over a score of years ago for its placer gold production, but after 900,000 ounces of silver had been produced between 1915 and 1918, that area became known as a silver camp. Although silver ore was known at Keno Hill for several years, its value was not appreciated until 1919, when Louis Bouvette sent ore to Dawson to be assayed, the returns from which was sufficient to immediately interest the Yukon Gold Company.

"The Yukon Gold Company acquired interests on Keno Hill in August, 1919, and have ever since been actively developing their claims. The first shipment, consisting of 2,350 tons of lead-silver ore, was hauled to Mayo in the winter of 1920-21 and shipped to the Selby smelter last summer. This ore contained approximately 200 ounces of silver and 60 per cent lead. During this coming winter between 3,000 and 5,000 tons will be mined and shipped from their No. 9 vein. This ore is expected to have a higher silver content than the shipment of last year. At present the Yukon Gold Company is employing 25 men at the top of Keno Hill, where the ore is being mined. At their new discovery on the west end of Keno, 12 more men are working at

EFFORTS TO AVERT R. R. STRIKE ARE FUTILE; CONFERENCE OVER; ONE MORE MEETING CALLED

BULLETIN—CHICAGO, Ill., Oct. 21.—Late this afternoon the Railroad Labor Board, backed by all the authority of the Government that can be placed at the Board's disposal, called Railroad Executives and the chiefs of the Big Five Brotherhoods to appear here on October 26 and also solemnly warned all railroad unions not to strike until the Board has heard their grievances and rendered a decision.

This action practically means there will be no strike on October 30 unless the Unions choose to openly defy the Government which is hardly possible as the Board's decision cannot possibly be made before October 30.

Both unions and railroad chiefs are to appear so the Board may determine whether there have been violations of the Board's orders. The Board has assumed jurisdiction over the proposed strike on the ground that the strike is likely to substantially interrupt commerce.

CHICAGO, Ill., Oct. 21.—Efforts of the Railroad Labor Board to avert a strike of railroad men on all systems in the United States on October 30 apparently failed when the conference with the heads of the Big Five Brotherhoods adjourned last night sine die with the announcement by the Labor Board that "while the discussions were beneficial, no definite results were obtained."

Chairman R. M. Barton, of the Railroad Labor Board said: "The adjournment is final. We do not plan a further conference with the labor leaders nor to call in the railroad presidents. I cannot say what our next step might be."

The executives of the Big Five Brotherhoods said: "The conference was absolutely without results."

The Brotherhood chiefs prepared to return to their headquarters at Cleveland at once.

Members of the Labor Board, other than Chairman Barton, said it is still possible to hold further meetings though none have been planned yet. One member remarked: "The Labor Board is determined to go as far as possible under the law and if unable to accomplish anything, it will be the fault of the law rather than the fault of the board. We are satisfied some government agency will find the solution."

The majority of the Board members, however, are not optimistic.

CANADIAN R. R. TROUBLES.

OTTAWA, Oct. 21.—At the opening today of the arbitration hearings between the Canadian National Railways and the railroad employees on the question of wages, A. R. Moser, President of the Canadian Railroad Brotherhood employees made a statement that his organization was "willing to approve of a reasonable reduction in pay to assist the railroads."

Moser added that he believed a reduction, however, was not warranted on account of the present high cost of living.

Brotherhood Chiefs Leave Chicago; Next Step from Washington

CHICAGO, Ill., Oct. 21.—This morning W. S. Stone, President of the Brotherhood of Engineers; W. G. Lee, President of the Brotherhood of Trainmen and W. S. Carter, President of the Brotherhood of Firemen, returned to Cleveland. L. E. Sheppard, Chief of the Conductors' Brotherhood went to Cedar Rapids and T. C. Cashen, head of the Brotherhood of Switchmen left for Buffalo. Union men close to the Brotherhood chiefs said that the next step in the railroad strike situation must come from Washington.

WOULD ACCEPT WAGE CUT.

MILWAUKEE, Wis., Oct. 21.—The American Men's Association, a fraternal benevolent association embracing 10,000 yard masters, yard clerks and switchmen has appealed to all unions to cancel the proposed strike and accept the wage cut ordered by the Railroad Labor Board.

STILL OPTIMISTIC.

WASHINGTON, Oct. 21.—Official circles continue to be optimistic over the railroad strike situation despite the gloomy developments of the conference held in Chicago yesterday and ending last night without results.

WASHINGTON, Oct. 21.—Late this afternoon it is understood the administration has had under consideration whether to resort to war time power of the Federal Government to maintain railway transportation in event of a strike.

STRIKE OCTOBER 22.

SAN ANTONIO, Tex., Oct. 21.—E. G. Goforth, manager of the International and Great Northern Railway of Texas has notified the railroad trainmen would strike October 22, six hundred men being affected.

WILL STRIKE ANYWAY.

SAN ANTONIO, Texas, Oct. 21.—On being advised late this afternoon of the Labor Board's declaration there will be no strike of trainmen on October 30, E. B. Thompson, general chairman of the conductors on the International and Great Northern Railroad, said: "It won't make any difference. The order to strike has been issued and we are preparing to strike."

MORE MEN VOTE TO STRIKE.

CHICAGO, Ill., Oct. 21.—The United Brotherhood of Maintenance of Way and the shop laborers in a statement today said that 95 per cent of the 365,000 men have voted to strike in concert with other railroad unions.
